

Publications (as of May 2022):

Book

Renilson, MR, (2018) ‘Submarine Hydrodynamics’ (Second Edition) Springer, 2018, ISBN 978-3-319-79056-5.

Renilson, M., ‘Submarine Hydrodynamics’ Springer Briefs in Applied Sciences and Technology, 2015, ISSN: 2191-530X, ISBN: 978-3-319-16183-9.

Book Chapters

Renilson, M., ‘Hydrostatics’ in Compendium of Ship Hydrodynamics, Practical Tools and Applications, Les Presses de l’ENSTA, January, 2016. ISBN-10: 2722509490, ISBN-13: 978-2722509498.

Renilson, M., ‘Extreme Motions and Capsizing in Waves’ in Compendium of Ship Hydrodynamics, Practical Tools and Applications, Les Presses de l’ENSTA, January 2016. ISBN-10: 2722509490, ISBN-13: 978-2722509498.

Renilson, M., ‘Damage Stability’ in Compendium of Ship Hydrodynamics, Practical Tools and Applications, Les Presses de l’ENSTA, January 2016. ISBN-10: 2722509490, ISBN-13: 978-2722509498.

Technical Papers

Kim, H., Renilson, M., Ranmuthugala, D., and Binns, J., (2022) ‘Prediction of the stern dipping tendency of a submarine in a turn’ Proceedings of the 34th Symposium on Naval Hydrodynamics, Washington, D.C. June 26 – July 1 2022.

Kim, H., Renilson, M., and Ranmuthugala, D. (2022) ‘Hydrodynamic issues associated with out-of-plane loads on the turning of a submerged submarine’, Proceedings of Pacific 2022 International Maritime Conference, Sydney, Australia, May 2022.

Cartwright, B., Renilson, M., McGuckin, D., Magoga, T., Mulcahy, L., Melchers, R., and Chhor, A., ‘Towards a cost effective approach to extending the life of naval surface ships’, Proceedings of Pacific 2022 International Maritime Conference, Sydney, Australia, May 2022.

Kim, H., Binns, J., Pook, D., Ranmuthugala, D., Khoo, M., and Renilson, M., (2021) ‘Partnering to develop a world class submarine hydrodynamics capability for Australia’, 6th Submarine Science, Technology & Engineering Conference 2021(SubSTEC6), Adelaide, November 2021.

Polis, C., Renilson, M., Ranmuthugala, D., (2021) ‘Prediction of the vertical plane manoeuvring coefficients for a submarine when close to the surface’ IX International Conference on Computational Methods in Marine Engineering, MARINE 2021.

Kim, H., Ranmuthugala, D., and Renilson, M., (2021) ‘The vertical force required from the aft control surfaces to enable a submarine to maintain a level turn’ Proceedings of Warship 2021: Naval Submarines and UUVs, Royal Institution of Naval Architects, UK.

Bonci, M., De Jong, P., Van Walree, F., Renilson, M., and Huijsmans, R.H.M., (2019), ‘The steering and course keeping qualities of high-speed craft and the inception of dynamic instabilities in the following sea’ *Ocean Engineering*, 194 (2019) 106636, <https://doi.org/10.1016/j.oceaneng.2019.106636>.

Cartwright, B., Mulcahy, L., Melchers, R., Magoga, T., Aksu, S., McGuckin, D. and Renilson, M., (2019) ‘Seaway Loads Applied to a Frigate by the Smoothed Particle Hydrodynamics Technique’ Proceedings of Pacific 2019 International Maritime Conference, Sydney, Australia, October, 2019.

Delore, J., Keane, J., Paes, M., Van Den Berg, M., Wilbraham, J., and Renilson, M., (2019) ‘Opportunities for enhancing defence capability generation: The fourth industrial revolution’, Proceedings of Pacific 2019 International Maritime Conference, Sydney, Australia, October, 2019.

Kirkby, D, Pook, D, Renilson, M., and Ranmuthugala, D., (2019) ‘Analysis of aft-control surface interaction with an axisymmetric underwater vehicle hull’ Proceedings of Pacific 2019 International Maritime Conference, Sydney, Australia, October, 2019.

Seil, G., Gargan-Shingles, C., Ranmuthugala, D., and Renilson, M., (2019) ‘Propulsive efficiency of submarines and surface warships over their operational speed ranges’ Proceedings of Pacific 2019 International Maritime Conference, Sydney, Australia, October, 2019.

Brazier, T., and Renilson, M., (2019), ‘The reduction in effectiveness of a tug due to its propeller wash’, Australasian Coasts & Ports 2019 Conference – Hobart, 10-13 September 2019.

Denehy, S.P., Duffy, J.T., Renilson, M.R., and Ranmuthugala, D., (2019) ‘Restricted water effects on the prediction of berthed ship-passing ship interaction forces and moments using inviscid and viscous numerical models’, Proceedings of 5th International Conference on Ship Manoeuvring in Shallow and Confined Water, 19 – 23 May, 2019, Ostend, Belgium.

Bonci, M, De Jong, P, Van Walree, F, Renilson, M, Keuning, JA, Van’t Veer, R, (2019) ‘The heel-induced sway force and yaw moment of a high-speed craft in following regular waves’, *Journal of Marine Science and Technology*, pp 1–14, first online: 11 April 2019.

Bonci, M, Renilson, M, de Jong, P, van Walree, F, and Van’t Veer, R, (2018) ‘On the direct assessment of surf-riding and broaching-to vulnerability of a high-speed craft’ Proceedings of the 13th International Conference on Stability of Ships and Ocean Vehicles, 16-21 September 2018, Kobe, Japan.

Bonci, M, Renilson, M, de Jong, P, van Walree, F, Keuning, AJ, and Huijstams, RHM, (2018) 'The heel-sway-yaw coupling on a high speed craft in calm water', *International Journal of Small Craft Technology*.

Cartwright-B., Groenenboom, P.H.L., Renilson M.R., and Melchers, R.E., (2017), 'Exploiting Particle Methods to Investigate the Structural Integrity of Maritime Platforms', *Proceedings of the 9th Australasian Congress on Applied Mechanics (ACAM9)*, 27-29 November 2017.
